Senior 'starts' set for sure!

by GLORIA DAVIS

After much talk, a lot of press coverage on the subject, and years of promises from all

sides, it looks like the village of Antioch is finally going to get some senior citizen housing.

According to Mayor Ray Toft, after signing a contract with the Lake County Housing Authority (LCHA) a few months ago, the village has received a letter from the LCHA agreeing to the funding of 20 to 25 senior housing units in the village.

One of the stipulations is that the village will also accept four to five low income housing renovations scattered through the village.

Toft explains that this means that the housing authority has an ascertained amount of money to spend on purchasing and renovating each family unit.

Toft says that he expects to be working with real estate agents in the search for the family units to be remodeled, probably giving the architect eight or 10 to choose from.

"We are already looking at three or four different sites for the senior housing," said Toft.

With the paper work expected to be completed by spring of 1982, the entire project should be started by next October, with the target completion date tentatively set for spring of 1983.

"Our contract with the housing authority originally called for 50 senior units," said Toft, "But with this funding suddenly becoming available to us, we decided to jump on the bandwagon and take what we could get now."

2 arrested for pot, booze

At 1:30 a.m., on Thursday, Nov. 12, Sgt. Charles Watkins of the Antioch Police Dept. observed a westbound vehicle swerve and bump curbs twice in the vicinity of Bernie's Deli, at the intersection of Rte. 83 and North Ave.

When he stopped and approached the vehicle he observed a suspicious substance in the lap of one of the occupants.

He subsequently arrested Robert Jungkans, 21, Salem, for possession of marijuana and Todd R. Newman, 20, Kansasville, for negligent driving and the transportation of open intoxicants.

A white powder found in the vehicle has been sent to the Lake County Crime Lab for identification.

Both were released on bond to face a hearing on Dec. 18, at 10:30 a.m., in Fox Lake.

Help Out Santa

Here's a copy of a letter received by Mayor Roy Toft last week.

Please allow me to express my appreciation and respect for your very clean and well run city — My elves and I have been studying many areas for our summer home and postal center.

We have chosen Antioch because of its clean environment and the fact that it's in the center of my flight path from the North Pole to all points of the world.

Besides my reindeer can still find open land to graze in. We will be using the Antioch Post Office to receive my Christmas mail.

As you may have heard my elves and I have been answering childrens letters for quite awhile, but due to the cost of postage from the North Pole — we are now doing that same work from Antioch. Just in case anyone asks, Santa would never ask the children to pay any monies for a personal letter from Santa.

Now that you understand our work and commitment perhaps you could help Santa with a little problem.

We can not find our street (Toyland Rd.) anywhere on your village map.

Needless to say, neither can the post office! So my poor elves have to go to the post office everyday to pick up my mail and to make matters worse, the children are saying, "Santa must be a fake because there is no such street in Antioch!"

We keep telling them that you have all been so busy taking such fine care of the people of Antioch that no one has had the time to put Toyland Rd. on the map. Anything you could do to correct the problem for Santa would be much appreciated.

Well, Santa has to go now, time to fly up north and check on the elves at the workshop, but I'll be back real soon, so remember to be good and maybe you will find something special under the tree this year!

Merry Christmas
To All,
Santa

Maginots lend personal touch to funeral home

Paul and Eileen Maginot of Antioch, have recently purchased the Barr Funeral Home from their former partner, William Barr. Maginot, had been a partner of Barr's since July of 1975.

Maginot is currently secretary of the Antioch Lions Club and has been "Candy Day" chairman for the club for the past four years. He is also a member of the Antioch Rotary Club and is on the board of advisors of the Lake County Catholic Charities.

Maginot and his wife, the former Eileen Lyons of Cicero, Ill. were married in June of 1960 and have two daughters. Michelle, 14, attends Carmel High School in Mundelein and Susan, 8, is in the third grade at Emmons School.

They both will be personally serving each family, since they feel that personal service in time of grief is what each family desires and deserves.

We are even happier to find someone residing in the community to serve as president of Antioch Savings and Loan.

As a resident, Jim will be sensitive to the needs of the community, and as president of their savings and loan he will be able to offer top management support to meet those needs.

In describing his feelings toward the community, Swiatek states that, "one of my first goals will be to attempt to get enough local people to invest in the savings and loan to insure that it becomes and remains a community owned institution."

3 teens crash in two-state, 90 mph, 14-squad police chase

by GLORIA DAVIS

Approximately 14 police squads were involved in the apprehension of the driver and two occupants of an Illinois licensed vehicle that ended up hitting a utility pole off of Hwy. F, west of Hwy. W, in Salem, at 11:50, Saturday, Nov. 14.

One of the first police reports had the vehicle matching the description of one involved in the shooting of a Round Lake policeman on Friday, Nov. 13, but this report has since been

dispelled.

Squads from Antioch, Lake County, Kenosha County, Wheatland, Twin Lakes, Silver Lake, Salem, plus the Wisconsin state patrol were involved in a chase that started in Lake County and ended with the vehicle that was being chased not making a curve on Hwy. F and ending up in a ditch.

According to Lt. Tom Fisher of the Antioch Police Dept., Sgt. Charles Watkins, Antioch Police Dept., chased

a vehicle driven by Kevin E. Stone, 17, Lindenhurst, after it ran a red light at the intersection of Rtes. 173 and 59, spinning its tires.

Watkins chased the vehicle with red lights flashing and siren blaring at speeds up to 80 miles per hour down Tiffany Rd. where it ran two other traffic signs, turning on North Ave. to Rte. 83, where another squad tried unsuccessfully to intercept it.

Both Antioch squads kept on with the chase, heading

north on Rte. 83 to Hwy. 50, west on Hwy. 50, turning left onto Hwy. F, where they were joined by Wisconsin squads at speeds reportedly reaching 90 miles per hour.

A police car roadblock was set up at the intersections of Hwys. F and B but the car ran the roadblock, crashing into the utility pole seconds later.

Stone, Russell J. Walter, 17, Lindenhurst and another juvenile were arrested at the scene and returned to Antioch.

Stone was charged with fleeing and eluding, no valid drivers license, speeding, running two traffic signals and reckless driving.

The Antioch Police discovered that the vehicle had been reported stolen by Laura L. Barry, Libertyville. Lake County Police charged Stone with car theft.

He was taken to Lake County Jail, Waukegan, to be formally charged.

Walter and the juvenile were both charged with minor drinking.

Antiochans cursed by Friday, 13th

Friday the 13th was bad luck for two Antioch residents who were involved in a vehicle collision on Rte. 45 in Bristol Township.

They had almost made it through the day since the accident happened at 11:50 p.m. when a car driven by Diane Mappelhans, 18, Antioch struck a trailer that was blocking the east lane.

The trailer was being pulled by a truck

driven by John Dorsi, 40, Antioch, who was attempting to enter a driveway.

According to a representative of the Antioch Police Dept., Mappelhans said she did not see the trailer until the last second although the police report had the trailer lights in working order.

Mappelhans was taken to Victory Memorial Hospital with head and arm cutusions.

I just read where former Antioch resident Arlene Albert, daughter of Mrs. Edith Cribb and daughter-in-law of Mr. and Mrs. Walter Albert, has just made school board history in Joliet, where she now lives.

It seems that the Joliet Central High School Board had voted to close the school after the 1982-83 school year because of the serious decline in enrollment.

Many of the electors disagreed with the board and so during the recent school board election they waged one of the strongest write-in campaigns in the history of Will County.

Arlene and another write-in candidate upset two incumbents in an election that was unusual because it took 5,000 correctly cast write-in ballots to unseat those in office.

It is very difficult to correctly cast a few write in votes, much less 5,000 of them.

Congrats Arlene, hope you can help keep your school open!

When I think about it Mr. & Ms. A, 1981 style have completely new look

by GLORIA DAVIS

Well the figures are out and all of those facts that we put down on the much-maligned census forms have been fed into the computers who have in turn sketched Mr. and Mrs. Average American, 1981 style.

Mr. and Mrs. A are getting older and she is still living longer than he is. Ten years ago he was 26 now he's 28; she was 29, today she is 31.

Although other statistics show our educational standards slipping, we seem to be spending more time in the classrooms, gaining less knowledge. In 1970, 63 percent of those over 25 had completed high school, now 9 percent can legitimately attend their high school reunions.

And even though the cost of college tuitions have gone out of sight, there's a six percent rise in the number that receive their sheepskins.

The statistics bear out all we have heard about the new morality, with the number of unmarried couples comprising a household tripling in the last 10 years.

We are spending 16 cents of every dollar we make for food, with the average family consuming 2.5 tons of food annually. Our menus list fish and poultry more, and beef less often and we're not eating as many eggs and are drinking less milk than we did in 1960.

Figures from the Professional Remodelers Assn. show that, with all the diet foods on the grocery shelves and Mr. and Ms. A seemingly very figure conscious, we are still eating more and more candy, with the average person expected to consume 17.3 pounds of candy this year.

Americans still love their ice cream with 5 percent making theirs vanilla, 33 percent preferring orange sherbert and 10 percent asking for a double dip chocolate cone.

What did Mr. and Ms. A do for entertainment in 1981? Well despite tv, movies, video games, etc. more books are being sold than ever before, with people living in California turning out to be the most avid bookworms.

But a sign of the change in the entertainment scene is the fact that we spent three-times as much on coin-operated video games as we did going to the movies last year.

The saying "When in doubt, sue, is reflected in the fact that more and more lawyers are hanging out their shingles. Last year we had one "legal eagle" for every 410 persons, a 50 percent increase over the last 30 years.

And we are becoming more and more transient with 20 percent of the American households moving every year. Westerners seem to move around more, with one out of every four of those households changing scenes annually. Northeasterners seem to stay put more than those in other parts of the country.

Maybe there is a relationship between western transiency and the national crime rate since Nevada ranks as the number one "bad place" Florida and Arizona are not far behind when it comes to the constant screams of the police siren and flashing red lights.

Why even the favorite "Great America Lies" seem to have changed in the last few years, the most popular ones now being: "One size fits all;" "You don't look a day over 30;" "It's not the money, it's the principle;" "This offer is limited to the first 100 people who call in;" and "I need just five minutes of your time."

Lions to give attendance acclamation

The following members of the Antioch Lions Club will receive perfect attendance awards at the meeting to be held at the Colony House Restaurant on Monday, Nov. 23.

ONE YEAR: Bruce Adams, Ron Anderson, Paul Eckert, Laddie Korecek, Tim Osmond, Bill Pringle, Jim Cermak.

TWO YEARS: Bob Lindquist, John Wolf.

THREE YEARS: Bruce Ahlquist, Paul Maginot, Frank Roblin.

NINE YEARS: Bob Lasco.

Offer Prayers

Editor:

Many thanks for the kind mention of my wife, Ginger.

Sincere thanks, too, for the many cards, flowers, gifts and calls that steadily are coming into Room 307-B at Victory Memorial Hospital from all of her bingo pals at St. Peter's Church, Jim Egem's VFW Memorial Post and the Moose Lodge.

Ginger is the type of person who has a heart as large as her body, a loving, outgoing personality who not only makes friends, but has the rare quality of keeping them.

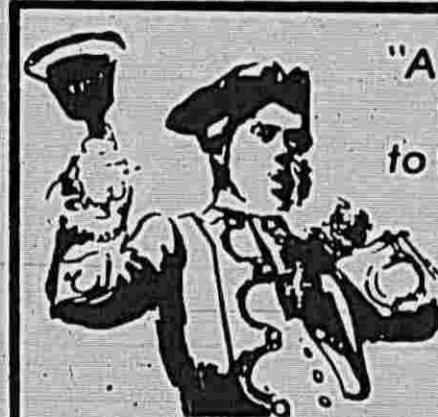

She has a wonderful philosophy of life, about cheering up the other fellow and disregarding her own crippling disabilities.

She would sit at her work table in the kitchen, decorate greeting cards and get them in the mail. There are no doubt many of your readers who have received cards. She spent a small fortune on stamps and cards, but it was her happy hobby. When I would chide her for the many eye-straining hours she would put in this was generally her reply: "You can't sprinkle the perfume of happiness upon others without spilling a few drops on yourself."

Keep looking up. She still needs your prayers.

LOSING A FILLING

Why do fillings sometimes fall out?

It's important to know just what functions a filling does and doesn't serve in a tooth. It does seal off and protect the hole formed by tooth decay and the drilling required to remove it. But the filling doesn't in itself make the tooth any stronger. In fact, the strength of the filling depends on the amount of tooth material left surrounding it after the decay is removed. Usually, the larger the filling, the weaker it is.

If your fillings fall out frequently, it could be that they are simply too large to be held securely by the remaining tooth structure. In this case, crowns (caps) should be made. Crowns serve the same purpose as fillings, but they fit over and surround the tooth, rather than fitting within it.

ACHS sophs capture football title

The Sequoit varsity football team went down in defeat under the pressure poured on by the Warren Blue Devils, losing the Northwest Suburban Conference title to them, but the gridiron honor of Antioch High School was still held high by a victorious sophomore team.

The sophomore Sequoits clinched a co-championship with the Blue Devils on Saturday, Nov. 7, by beating them 21-16, finishing the season with a 7-2 record.

Quarterback John Humphreys passed for a total of 900 yards, completing 38 out of 66 passes and 10 touchdown passes for the season.

Ed Silza and John Mahar scored nine touchdowns each, while end, Brian Becker and wingback, Craig Prather scored seven and four touchdowns respectively.

Leading in pass receptions for the season were Becker, with 13 catches for 421 yds.; Rod Steiskal with 12 catches for 272 yds and

two touchdowns and Prather, eight catches for 102 yds and one touchdown.

Rushing leaders were John Mahar, 119 carries for 759 yds.; Ed Silva, 80 carries for 259 yds. and Prather with 25 carries for 183 yds.

Defensive standouts were middle line backers Gene and Dean Elrod and defensive end Frank Mahar.

Leading pass interceptors were Prather with five and Joel Bissing with three.

In the championship game, key defensive plays were made by Bissing, with a pass interception and Dave Maire, who had two key tackles behind the line of scrimmage that stopped a Warren fourth quarter drive.

To keep the Sequoits on top, "Workhorse" John Mahar had 177 yds rushing and two touchdowns. Quarterback Humphreys scrambled out of the pocket to hit Becker with a 40 yd. pass with just 16 seconds left in the first half.

Carole pushes job, career selections

by CAROLE RISK

If you are a student looking towards getting a job in June or trying to make a career choice for college, or if you are an adult looking for a job now, the dwindling job market, since we are at the highest unemployment rate since 1975, eight percent, seems discouraging.

However there are ways to achieve employment success, choose a career or look for a job in a growing field. A good example is data

processing. Computers are the thing. There are more jobs than qualified people in this area, one allied with health care. Hospitals are expanding at a terrific rate, and as people are becoming more and more aware of preventative health care, there will be plenty of opportunities for jobs related to medicine including dentistry, from file clerk to the technicians needed to maintain medical equipment. Electronics, almost

everything is transistorized today and the need for engineers in industry, business and government will be steadily increasing.

Another way to succeed, according to several local employment agencies, is to learn how to make yourself and your qualifications attractive.

Surprisingly, a lot of people fail to get the job they want, or if they have the job that they want fail at it, because they don't put their best foot forward. They simply make a bad personal impression.

This is especially true of young people who just come out of school, thinking that they know it all. This always manages to rub people the wrong way.

According to statistics, 75 percent of all those who fail to get a job or to succeed at a job can chalk it up to not making a good impression, not to use the lack of technical qualifications.

Among the factors that are encouraging for local people are the fact that em-

ployment opportunities in Lake County are better than the state average, and with the increase in federal spending for the military, civilian

employment at Great Lakes Naval Base will be increasing.

For that matter, nearly all military-related industries

will be looking for employees. So, don't be discouraged, just be more selective in your job hunt or career choice.

Jim Olson eyes state rep race

There's a good chance Antioch will be represented in the race for the Republican nomination for state representative from the new 62nd legislative district.

James (Jim) Olson of Antioch is interested in running. This would be the second time he has sought a representative nomination.

The new district includes Antioch, Lake Villa, Newport, Benton and Zion townships, and parts of Avon, Warren and Waukegan townships.

Atty. Robert Churchill of Lake Villa is expected to announce his candidacy for a GOP nomination this week. Only announced candidate so far is Ronald Greisheimer

of Wadsworth, who served four terms in the General Assembly from the old 31st District before being defeated for reelection two years ago.

Olson will run, friends have reported, if he can arrange sufficient financing. He formerly operated an implement business in the Antioch area with his brother, Stuart. Another brother, Russell, currently serves as lieutenant governor of Wisconsin.

Churchill serves as a trustee of Lake Villa Township and maintains offices in Grayslake. He was elected as a John Anderson presidential delegate last year.

Norm Geary enters County Board race

Norman C. Geary of Grayslake has announced his bid to represent District 4 residents on the Lake County Board. The district includes Avon, Grant, Lake Villa and Antioch townships.

Geary's candidacy has been recommended by the Avon Township Republican Central Committee.

During more than two decades in public office, Geary has been elected to the Grayslake Village Board and, for 18 years, to the County Board. He served as County Board chairman for two years, and chairman of the County Board of Review. He is currently supervisor of Avon Township.

Though leader of the so-called "economy bloc" while

a County Board member, Geary is most proud of his success in influencing the county health department to extend its services to the District 4 area. Results of that effort include the health department satellite facility at the new Avon Township Center in Round Lake Park, and the nearby Mid-Lakes Medical Building.

During his public service career, Geary said, "I have achieved a well-earned reputation for personal honesty, and can offer District 4 residents a 'clean' candidacy based on my demonstrated integrity and proven abilities. I have the experience needed to handle the responsibilities of this important office."

Fair Assn. to elect 3 new directors

The Lake County Fair Assn. will hold its annual meeting and election at 8 p.m. on Monday, Nov. 16 in the cafeteria building at the fairgrounds.

The terms of three directors expire this year. They are: Raymond Flood, Joseph Magiera and Michael White. Of the three, only Flood has chosen to run for re-election.

The nominating committee has slated Flood, who is currently fair association president; Ed Clark, a professional photographer from Gurnee; and Gene Kulin of Grayslake, director of buildings and grounds at College of Lake County.

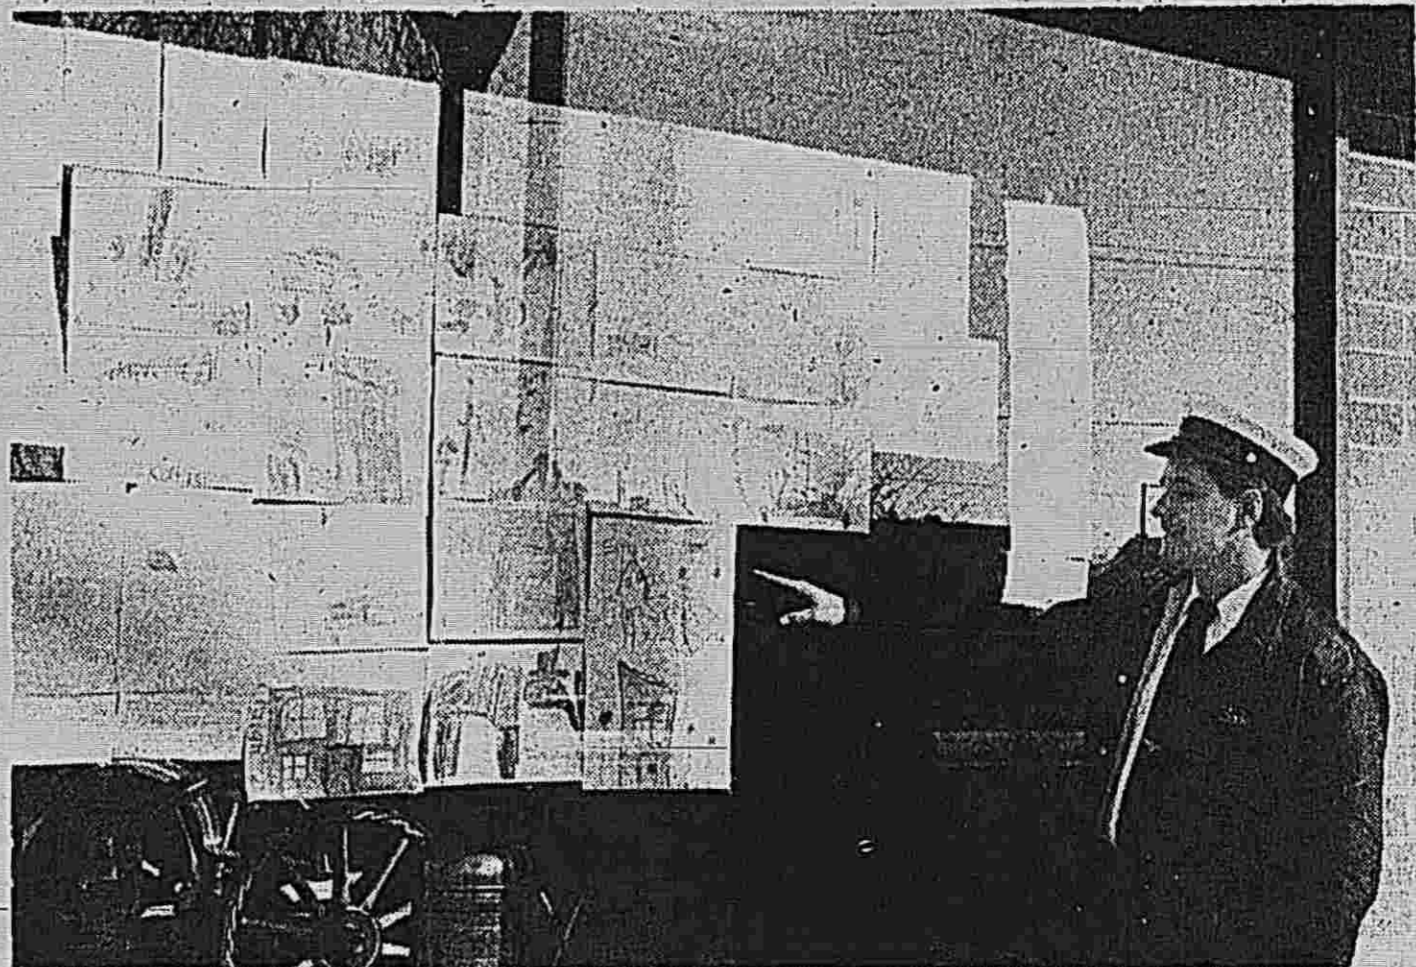

In addition to the election of three new directors, the 200 fair association mem-

bers will hear reports from the president, secretary and treasurer and from fair superintendents. A discussion will be held about the 1981 fair and suggestions for improving the 1982 fair, scheduled from July 28 through August 1, will be heard.

The Lake County Fair Assn. is a not-for-profit corporation. Membership is open to any Lake County resident who has interest in the fair and in agriculture. Members must purchase a membership ticket for \$7.50 during the fair.

A variety of exhibits highlighting the Victorian era were recently unveiled at the Lake County Museum.

TO SLEEP IS HUMAN. TO SLEEP DURING THE DAY IS DIVINE.

If you were in our shoes, you'd think so too.

Because the way things are now, when nearly everybody's up during the day, it's not so divine. The cost of producing electricity goes up.

You see, the eight million people we serve use an enormous amount of electricity before they go to bed. And our main generating stations, the ones that run on coal and uranium, have an

impossible time handling the demand. It takes our oil burners to pull us through.

But oil is far more expensive than coal and uranium. So during the day, electricity costs far more to make. Up to four and a half times more than at night.

Of course, if half of us would volunteer to start sleeping during the day, it would hold down the demand. Which would also hold down

the amount of oil we have to burn, the number of new generating stations we have to build, and the size of the electric bills you have to pay every month.

Since that's asking an awful lot, though, you'll be relieved to know there are other ways to get the job done. Nothing earthshaking. Just conserving a little more in the daytime.

Like not using your air

conditioner so much on those scorching summer days. Or not running the dishwasher till 9 or 10 p.m. Or the clothes dryer. Or other easy things like that.

When enough people go along, they really can make a difference.

All we have to do is do it together. That's the key. To keeping costs down. To getting some control over tomorrow.

If we only wake up.

PM&L PRODUCTION OPENS — "The Giants Dance" latest PM&L production opened Saturday, Nov. 14. Left, Frank Di Marco, General Nul, orders nephew Prince Yvain, Larry Bersi, off the throne that they attempt to steal.

'Giants' brings magic to Antioch with opening

Last Saturday night an audience of first-nighters was mesmerized by the opening performance of "The Giants' Dance," the new play at the PM&L Theater, 877 Main Street in Antioch.

This humorous and colorful tale of the wizardry and magic of fifth-century England seemed an ideally chosen vehicle for the peculiar talents of Lou Jones, the show's director, and Deane Jones, who developed many of the costumes and special effects which help tell Otis Bigelow's imaginative and offbeat tale.

Despite its magic, colorful costumes and sets, and exciting sword play, it is probably a mistake to think of "The Giants' Dance" as a children's show. It is a great play for the entire family anyway.

People will be especially interested in the matinee performance set for next Sunday af-

ternoon, Nov. 22.

PM&L audiences have been making increasing use of the afternoon show, often the best time for groups of all ages to enjoy a play together.

The PM&L production will run for two more weekends. In addition to the Sunday matinee, evening performances are set for Friday and Saturday nights.

Nov. 20, 21, 27 and 28. The curtain will rise at 8:30 p.m. for the evening shows, and at 2:30 p.m. for the Sunday matinee.

"The Giants' Dance" is an unusual show which develops an anti-war theme in a delightfully humorous manner.

To see the play, remember to call (312) 395-3055 to make your reservations, and to appear at the PM&L box office by 8:15 p.m. on the night, or 2:15 p.m. on the afternoon, the show is attended.

'Amahl' brings Christmas spirit to Antioch

The Fool's Players are preparing the delightful "Amahl and the Night Visitors", by GianCarlo Menotti and directed by Ken Smouse. It will be presented Thursday, Friday, and Saturday nights Dec. 3, 4 and 5, at 8 p.m., in the Antioch Community High School auditorium.

"Amahl and the Night Visitors" has delighted area audiences, both young and old, previously and is a very fitting way to start celebrating the Christmas season.

It is an opera in one act and is the story of

the little crippled boy and the magic which occurred when the three kings stopped at his lowly home on their way to find the newborn Jesus.

Philip Fabry from Lindenhurst again stars as Amahl. Joan Kusher from Antioch, and vocal music instructor at Barat College, plays his mother. The three kings are Bill Sershon, Wayne Sohszak, and Keith Boehm from Antioch.

The page is H. Alexander Apostol from Antioch.

Church's volunteer parents scheduled to hear speaker

The next regular meeting of the St. Peter Volunteer Parents' Group will be held on Tuesday, Nov. 17, at 7:30 p.m. in the family room of the school.

They are most fortunate to

again this year have as their guest speaker, Anne Kiefer, project director and educational consultant for the nine midwestern states served by the Northwest Educational Cooperative in

Arlington Heights.

Kiefer will be presenting the continuation of the topic "Learning is Fun," specifically, "Diagnosing Learning Problems and Helping To Remedy Them."

Kiefer has teaching experience from first grade to graduate school and educational experience up to a doctorate in education. Her specialties include English, Spanish, special education, theology, philosophy and administration.

She has been a high school principal and an administrator of bi-lingual programs, as well as the recipient of scholarships and fellowships.

Antioch AARP hears investigator

Wayne Parthun, chief investigator for the Antioch Fire Dept., was the guest speaker at the Nov. 10 meeting of the Antioch Chapter 387 of the American Assn. of Retired Persons held at the Antioch VFW Action Center, 75 E. North Ave. He showed slides and spoke of the fire department trucks and equipment that they use.

Members were told by Emily Novotny that Irene Daniels was a hospital patient. She fell and broke her hip while volunteering her services at the Veterans Administration Hospital in North Chicago. She is at St. Therese Hospital.

All members are asked to bring two cans of food to the Nov. 24 meeting to make up Thanksgiving baskets for needy families. You can give gifts without caring, but you cannot care without giving.

Loretta Schiffmann announced that Randy Wiesemann, director of Chain O'Lakes Senior Services, would be the speaker at the Nov. 24 meeting.

Due to a couple people not bringing sandwiches and cake as they were asked to, several of the members didn't get a sandwich or cake. Anyone who is unable to bring their refreshments on the day they are asked to, should call Hilda Thibodeau at (312) 395-4034, so that she

can make other arrangements.

Reservations for the Dec. 8 Christmas party at Hunter's Country Club in Richmond may be made at the next meeting.

INSIGHT INTO EYESIGHT

Dr. R. A. Sona, O.D.

OPTOMETRIST

The 20/20 Numbers Game

The term 20/20 refers to the size letters which the average eye can read twenty feet away. In most standard vision testing, you read the familiar Snellen eye chart at a distance of 20 feet. The upper number of the fraction expresses this distance. The lower number identifies the size letters you were able to read at 20 feet the line which a normal eye can read at 70 feet.

Often, this test is given by having you look into a machine which creates the same conditions optically. The results are roughly similar to those of the Snellen chart.

However, parents should not be lulled into the impression that their child has perfect vision because he scores a 20/20 on this vision test. All it measures is how well or poorly the child sees at that distance. And that's all. Problems with near vision, eye coordination and focusing ability are among the many problems. NOT discovered in this test. Only a professional eye examination will protect the priceless miracle of sight.

Fire department grateful to donating merchants

Assistant Chief Jim Quedenfeld, of the Antioch Fire Department Fire Prevention Bureau wants to thank the merchants from the Antioch community for their financial aid in the promotion of the recent fire prevention program, that was given to all of the schools in the Antioch Fire District.

Quedenfeld stated that he has received a lot of good comments on the literature that was purchased by these merchants and distributed to the schools during Fire Prevention Week, by the Antioch Fire Prevention Bureau.

Without the financial aid that the local merchants provided to the fire department, public services such as this might not be possible.

Quedenfeld also said that he and the department are pleased that the students enjoyed the program and learned from it. If just one

child is prevented from having a serious accident from fire through this program, than all of the time and money spent on it is worthwhile.

The fire department appreciates and thanks the children and teachers who took time to send the department the pictures and notes.

ACHS grad seeking sheriff election

Lake County Sheriff's Deputy Donald Mason, admitting that he has always "exercised my voting rights for the candidate that I felt to be the best choice, whether Republican or Democrat," has announced that he will seek the Democratic nomination for sheriff in the March primary.

In making his announcement, Mason severely criticized both expected Republican candidates, Robert (Mickey) Babcox of Grayslake, and Tom Brown of Gurnee.

Mason is a graduate of Antioch High School and served in the U.S. Marine Corps until 1969. Shortly thereafter he followed in his father, uncle,

cousin and brothers' footsteps by becoming a law enforcement officer.

"Prior to this election I have never been active in either the Republican or Democratic Party," said Mason. "As a police officer and professional, biding by the Merit System and its principles which prevented me from being actively involved in any political organization."

"Now pursuing the office of sheriff, giving extensive consideration and examination, I have chosen to seek the Democratic support of this county for the office of sheriff, win the nomination and commit myself as the Democratic choice for the office of Lake County sheriff."

Mason criticized Babcox for a recent "appreciation party" and "back room politics."

"I feel that the campaign of Coroner Babcox for sheriff should be taken out of the coroner's office and brought in accordance with the state guidelines for elections and Illinois Revised Statutes."

Mason also criticized Brown for a statement concerning a lawsuit filed against the sheriff by several deputies.

"For those who may have forgotten, it was Sheriff Brown who tried to abolish the Merit System and its principles in front of the law and judicial committee of this county. It was Sheriff Brown who removed all of the detectives, some with seven to 10 years of experience in this division, and replaced them with deputies who had helped campaign for Tom Brown and other candidates he had endorsed."

"It was these occurrences and the misuse of political power by Tom Brown that

spurred me to initiate the successful law suit with aid of 29 other deputies ranging in rank from patrolman to

lieutenant. The success of this lawsuit now ensures protection to the Brown or any future professionals from any sheriff."

High school fall drama features J.B.

Antioch Community High School (ACHS) will present its Fall drama production, J.B., Nov. 19, 20 and 21 at 8 p.m. in the ACHS auditorium.

J.B. by Archibald MacLeish, described as "a lovely work which sings of the unconquerable nobility of man's spirit..." became in 1959 the first poetic play to win the Pulitzer Prize.

It is set in a traveling circus which has been on the roads of the world for a long time. A balloon man, Mr. Zuss, and a popcorn vendor, Nickles, decide to act out the Book of Job from the Bible, with Mr. Zuss playing God and Nickles playing Satan.

J.B. (Job) and his family enter and what follows is basically the Book of Job set in modern times and dealing

with modern problems.

This modern interpretation of Job will feature Roger Knowlton in the title role, James Fabry as Mr. Zuss, Edward Wells as Mr. Nickles and Susan Butler as Sarah, J.B.'s wife.

A new system of reserved seats will be tried this year with the drama production. Reserved seats will be sold on a first come first served basis in the ACHS Commons (Rtes. 173 and 83) weekdays from 10:50 a.m. to 1:15 p.m.

Tickets may also be arranged for through members of the cast. Prices are \$2.50 for adults and \$1.50 for students.

Senior citizens and other special passes issued by the high school will be honored, but tickets should be picked up in advance.
